

## Instrument Pilot Ground School (IPGS)

Introduction to fundamental principles of aviation theory and practical applications for flight in instrument meteorological conditions.

- Provides a core body of knowledge necessary to develop aviation-related problem solving, analytical, and decision-making skills.
- Knowledge of this course material, and passing the FAA written examination based on this knowledge, are prerequisites for obtaining an FAA Instrument Rating on your Pilot Certificate.

**Directions:** TCU is in the vicinity of the intersection of University and Berry Avenue in Fort Worth. The specific building and classroom number for this course will be sent by TCU to registered participants.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
